

## Star Campus @ Greenridge Primary

The school-based student care centre (SCC) is available only to pupils of Greenridge Primary School. The SCC aims to provide a safe, structured and conducive environment for rest and learning after school hours. Pupils in SCC will have many opportunities to develop social and emotional competencies and foster positive relationships with others.

As part of the daily SCC programme, pupils will also have structured time and a conducive environment to complete homework assigned by school. However, do note that SCC does not provide academic support programmes, which are instead carried out by pupils' respective academic subject teachers.

The SCC service provider at Greenridge Primary School is **Star Campus Pte Ltd**. For any clarifications on programmes, services and fees, kindly contact:

**Star Campus Pte Ltd**
